Professional Summary

Experienced JavaScript developer with 3+ years in building dynamic, scalable web applications using modern frameworks such as React and Ember.js. Proficient in creating clean, efficient code that enhances the user experience and improves application performance.

Skills

- **Languages** JavaScript | Python
- **Frameworks/Libraries** React | Ember | Bootstrap | Tailwindcss | Django
- **Version Control** Git
- **Development Tools** Chrome DevTools | React Developer Tools | Ember Inspector

Work Experience

Algorithm Generation Limited

Software Developer	*Dec 2022 – Present*
Junior Developer	*Dec 2021 – Nov 2022*
Apprentice	*Jun 2021 – Nov 2021*

Projects

- **Clerk**: Developed an accounting system to manage financial records and transactions. Utilized Ember.js for a responsive and modular front-end. Integrated APIs using Ember Data for seamless data management. Managed live notifications and real-time updates with WebSockets. Focused on creating a user-friendly interface and optimized performance. (Ember.js, WebSockets)
- **HR**: Developed an HR web app with Ember.js, utilizing Ember Data for API management. Implemented real-time updates via WebSockets. Focused on modular design, performance optimization, and Agile practices. (Ember.js, WebSockets)
- **Image Gallery**: Simplify image management – upload, delete, and sort effortlessly for an organized gallery.(React, Django) [View Project]
- **Todo App**: A Todo List Application built with React.js featuring a Kanban-style interface with three distinct columns: New, Ongoing, and Done. The app allows users to manage tasks through different stages of completion with added functionalities like context menus, date pickers, and form pre-filling. (React) [View Project]
